

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

January 18, 2002 LB 413

to me that the better judgment in the whole matter is to narrow somewhat the broad language of the existing statute and make it the obligation of society generally to come to the Legislature each time there is a problem with a different substance and let's...let's control the substance. That is why we call our general law the controlled substances law. I think that explains the intent of the amendment. It's agreeable to the sponsor, as I understand it, and to Senator Chambers, so we would be interested in your reaction. Thank you.

SENATOR CUDABACK: Thank you, Senator Beutler. You've heard the opening on the Beutler amendment, AM2352. Open for discussion, Senator Robak. We'll try your mike again.

SENATOR ROBAK: Thank you, Mr. Speaker. Originally this bill was brought to me by my chief of police where I live, and later then it was brought to me by the State Patrol. Columbus, where I live, has experiences, several crimes in the past, which were committed by juveniles who were under the influence of inhalants, and I did have the opportunity to ride with a police officer one entire evening, and he took me to the places where these kids were inhaling and ingesting or whatever they do with...with...becoming intoxicated with these types of substances. And I really believe that we thought...I thought, at that time, and probably still do, that it's time to hold teens responsible for some of the choices that they make. So I did agree with Senator Beutler and Senator Chambers on this amendment, and I am happy to know that at least something good will come out of this bill. And perhaps we can revisit this at a later...later time. Thank you, Mr. Speaker.

SENATOR CUDABACK: Thank you, Senator Robak. Senator Thompson, on the Beutler amendment

SENATOR THOMPSON: Thank you, Mr. President, members of the body. I was...looked at this bill this morning and I listened with interest to what Senator Beutler had to say about it, and I just can't resist the opportunity to mention a couple things about this particular section of statute. And that is that in the compounds that are listed here, several of them that are on...that are currently law are compounds that are contained in
